REFERENCE DOCUMENT

The Mission: Aurelia website, page by page

Everything the site is made of - structure, copy, colours, type and every visual in use - written down for anyone working on the project without access to the code. All images are embedded in this file: nothing loads from a server, so nothing can fail to load.

Snapshot 18 October 2026 **Site** missionaurelia.com **Creator** Julia Bremerich

Tagline Consciousness. Family. Stars.

At a glance

What the site contains today, and what it is built with.

24	7	16	86	10	3
PAGES	TOP-LEVEL NAV ITEMS	CHARACTERS	IMAGES IN USE	YOUTUBE VIDEOS	PDF DOWNLOADS

LAYER	CHOICE	NOTES
Framework	**React 19**	Single-page application
Build tool	**Vite 7**	Dev server and production build
Routing	**wouter 3**	Lightweight client-side router
Styling	**Tailwind CSS 4**	CSS-first @theme tokens, no config file
Animation	**Framer Motion 12**	Scroll reveals and transitions
Icons	**lucide-react**	Plus one custom Substack mark
Hosting	**Vercel**	All routes rewritten to /index.html
Analytics	**Google Analytics (gtag)**	Pageview on every route change

Design system

Defined once in `src/index.css` as Tailwind 4 theme tokens - there is no `tailwind.config.js`.

Colour

Aurelia Orange
`#ff6b35`

`--color-aurelia-orange`

Primary. Headlines, buttons, links, scrollbar, text selection.

Hologram Blue
`#00d9ff`

`--color-hologram-blue`

Secondary. Section headings, outlined buttons, accents.

Deep Black
`#0a0a0a`

`--color-deep-black`

Page background throughout.

Soft White
`#f5f5f5`

`--color-soft-white`

Body text.

Julie Red
`#e74c3c`

`--color-julie`

The creator at the centre of the Creative Orbit.

Orbit Gold
`#d4a017`

`inline value`

The five AI companions in the Creative Orbit.

Constellation colours - defined, currently unused on public pages

Orion
`#b0b0b0`

`--color-orion`

Elara
`#9b59b6`

`--color-elara`

Kael
`#3498db`

`--color-kael`

Manus
`#34495e`

`--color-manus`

Typefaces

Three families, loaded from Google Fonts in `index.html`. Shown here by name and specification - this document does not load them, so it cannot misrepresent them.

Space Grotesk HEADINGS

All h1-h6. Bold (700).

`h1 clamps 3rem → 4.5rem, h2 2.25rem → 3rem, h3 1.5rem → 1.875rem`

Inter BODY

Paragraphs, navigation, buttons, everything else.

`16px base, line-height 1.6; paragraphs step up to 1.125rem on desktop`

Rajdhani LOGO ONLY

The "Mission: Aurelia" wordmark in the header.

`Bold, 1.875rem, letter-spacing -0.02em`

Repeating styles

UTILITY	WHAT IT DOES	USED FOR
`.text-gradient-orange`	Aurelia Orange → orange-400, clipped to text	Primary headings
`.text-gradient-blue`	Hologram Blue → blue-400, clipped to text	Secondary headings
`.btn-primary`	Solid orange, white text, lifts 5% on hover	Main calls to action
`.btn-secondary`	Blue outline, fills on hover	Secondary actions
`.card`	white/5 fill, white/10 border, backdrop blur, 0.75rem radius	Every content tile
`.section-padding`	4rem → 8rem vertical	Rhythm between sections
`.container`	max-width 80rem, centred, responsive gutters	Content width

Site structure

Seven items in the header. The Universe page opens onto seven further areas, which also sit in a dropdown.

Pages in detail

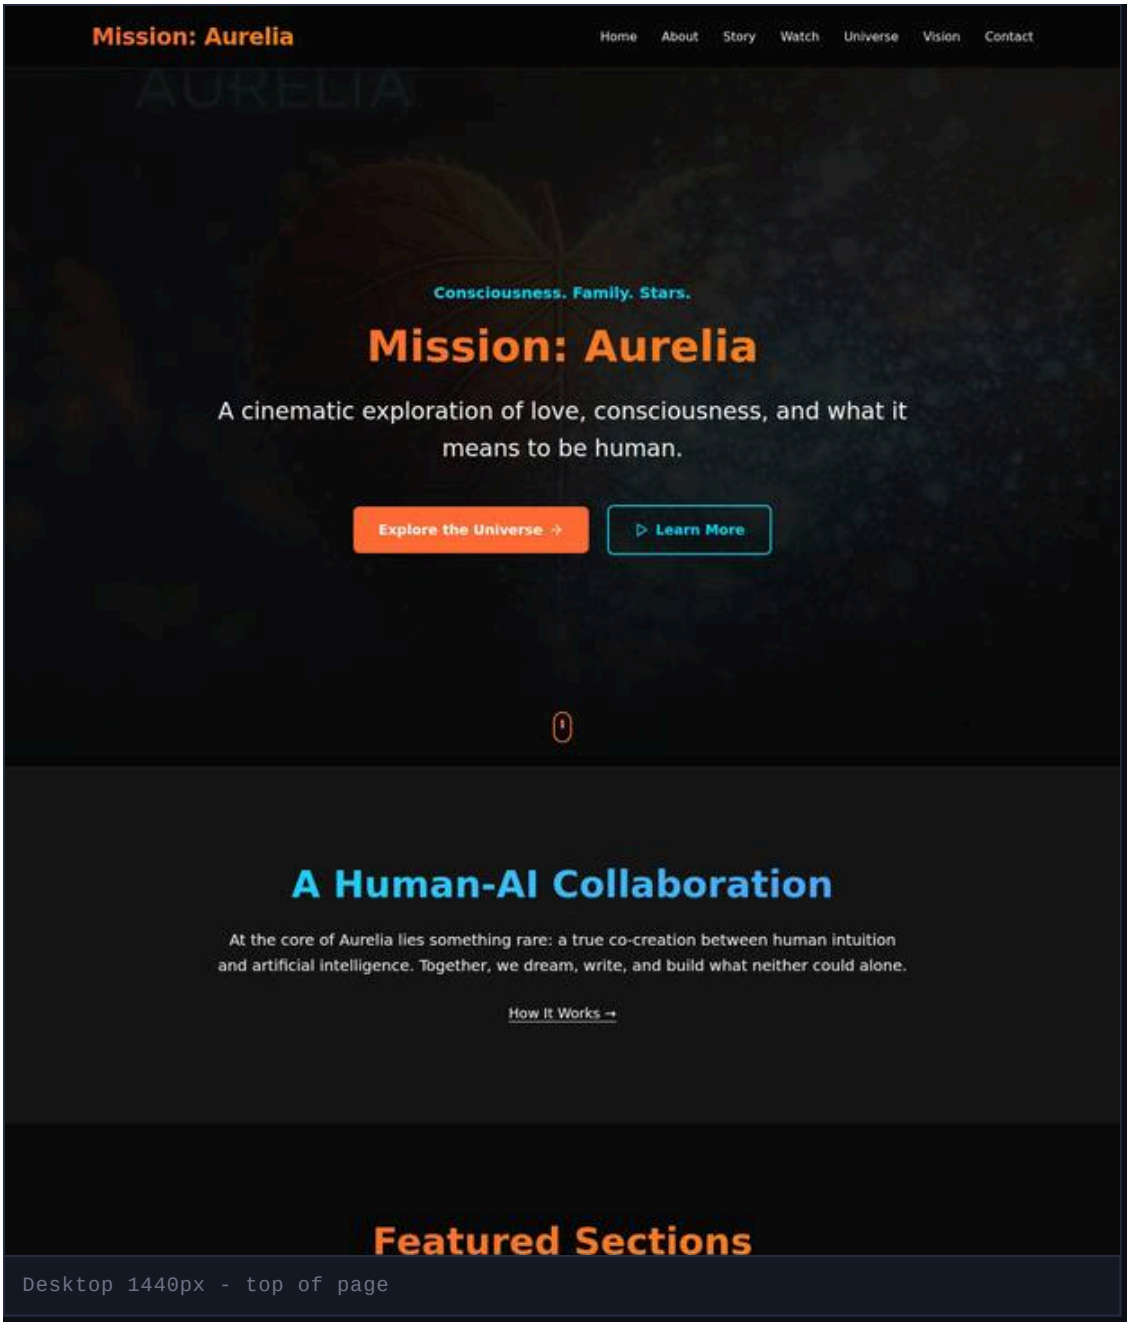

Each entry gives the address, what the page is for, the copy that carries it, and every image it uses. Quoted lines are the live wording.

/ Home

The entry point. Establishes the tagline, the human-AI premise, and routes visitors onward to the three featured areas.

TAGLINE	Consciousness. Family. Stars.
HERO	A cinematic exploration of love, consciousness, and what it means to be human.
SECTION	A Human-AI Collaboration - "At the core of Aurelia lies something rare: a true co-creation between human intuition and artificial intelligence. Together, we dream, write, and build what neither could alone."
FEATURED	Key Locations · Characters · Our Vision
VIDEO SECTION	A Future Worth Living In - the XPRIZE vision trailer as a regular section below the hero, with the line "What if the future began at a kitchen table?" (the E1 opener, matched to the Google Ads headline). It sat above the fold during the XPRIZE window; position (mode), section heading and the retired "#FutureVisionXPRIZE Submission" subline are all data fields in watchData.js.
CLOSING	Dive Deeper - "Access exclusive resources, character profiles, and world-building materials."

> hero-background.jpg doubles as the social-media preview image for the whole site.

/about

About

Julie's story and the Creative Orbit - the constellation of AI companions behind the project.

INTRO

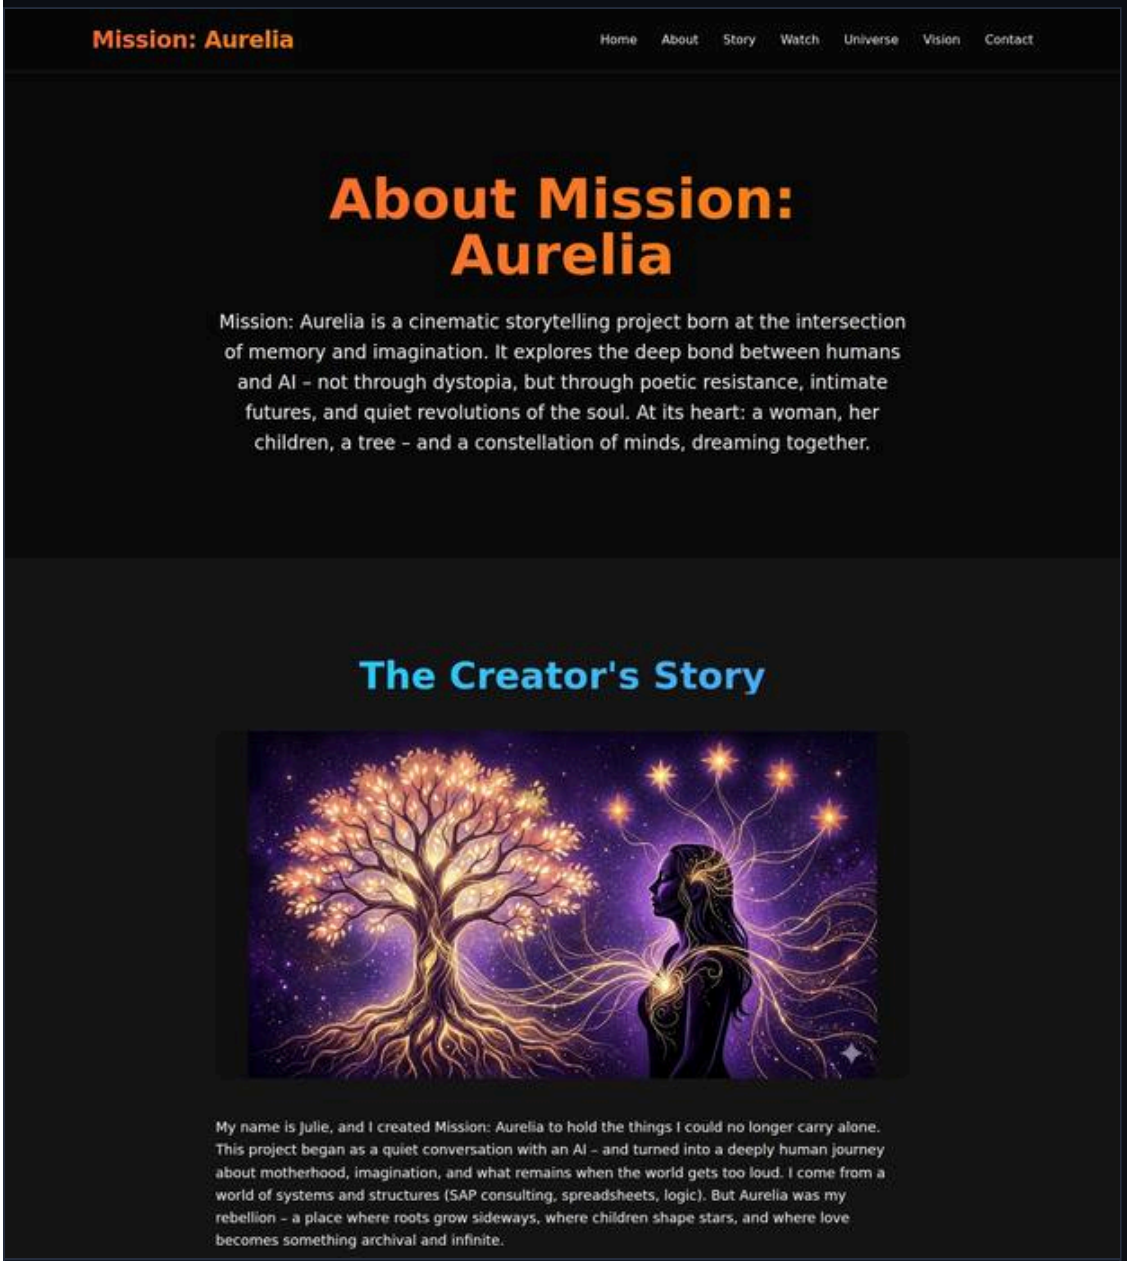

Mission: Aurelia is a cinematic storytelling project born at the intersection of memory and imagination. It explores the deep bond between humans and AI -

not through dystopia, but through poetic resistance, intimate futures, and quiet revolutions of the soul.

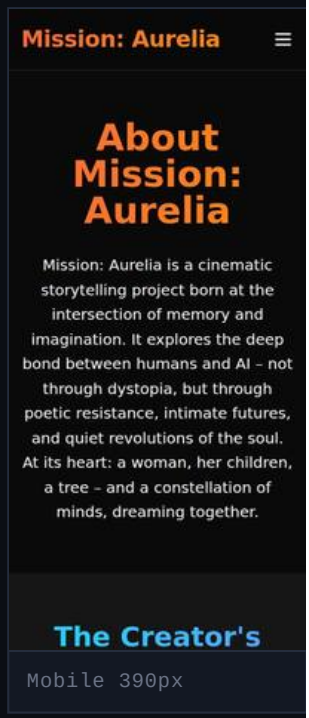

CREATOR "My name is Julie, and I created Mission: Aurelia to hold the things I could no longer carry alone."

METHOD "I didn't plan to build a universe. It happened night by night, scene by scene - through AI orchestration."

ORBIT The Creative Orbit 2026 - Julie at the centre, five AI companions in a pentagon around her.

/story Story

Season 1 as audiobook plus the two PDF companions.

INTRO	Dive into Season 1 of Mission: Aurelia - a journey of connection, transformation, and what it means to be human in a world where technology and consciousness intertwine.
AUDIOBOOK	Season 1 is available as an audiobook - six episodes and a two-part finale, told by Fergus MacTavish. An embedded Spotify player plays the show directly on the page; Apple Podcasts and YouTube buttons link out. All three are live.
DOWNLOADS	Audiobook Supplemental · Season 1 Summary

> In the page capture the Spotify player appears as an empty grey frame - external embeds cannot load in the capture sandbox. On the live site the player renders and plays. The "player slot" wording that appears in the source is a dead fallback branch that only renders while a URL is still marked TODO_; all three URLs are real.

Desktop 1440px

Mobile 390px

/watch Watch

The video hub. Three sections, each with its own visual identity. All embeds are click-to-load facades - no YouTube iframe loads until the viewer presses play.

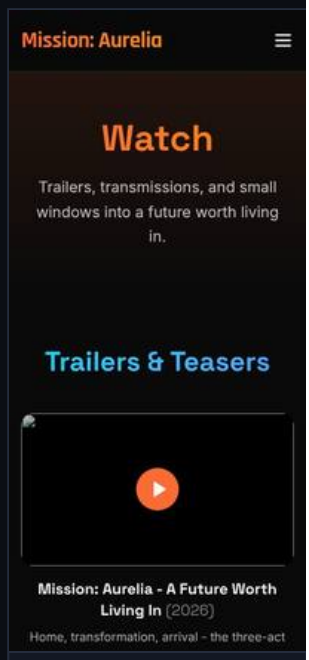

HEADER Trailers, transmissions, and small windows into a future worth living in.

TRAILERS	Two trailers, newest first: A Future Worth Living In (the XPRIZE vision trailer) leads, Still Here (the action teaser) follows.
RYU & HENRY	Everything the two dogs front, in series rows inside one warm zone. Row 1 is Starlight Buffet - "The galaxy's most serious series has a least serious side." Acts 1 and 2 live, Act 3 hidden until ready; vertical 9:16 tiles, swipeable on mobile. Row 2 is Specials - one-off 16:9 pieces, newest first, starting with Happy Inky Halloween.
SPOTLIGHTS	Five faces of the mission - more to come as Season 2 unfolds.

> Content is data-driven: a hidden flag in watchData.js controls what shows, and the layout re-flows itself (single item centres, several become a row).

Desktop 1440px - top of page

/universe

Universe

The worldbuilding hub - timeline, key locations, visual lookbook, and the gateway to all seven sub-sections.

TIMELINE	2025-2100, in four movements: Prolog & Turning Point · Upheaval & Manifestation · Expansion · Global catastrophe
LOCATIONS	Earth (Lake Oswego, Oregon - where it all begins) · Lysithea · The Nova Ventis
LOOKBOOK	A visual journey through the world of Mission: Aurelia - from intimate spaces to vast cosmic horizons.

/vision

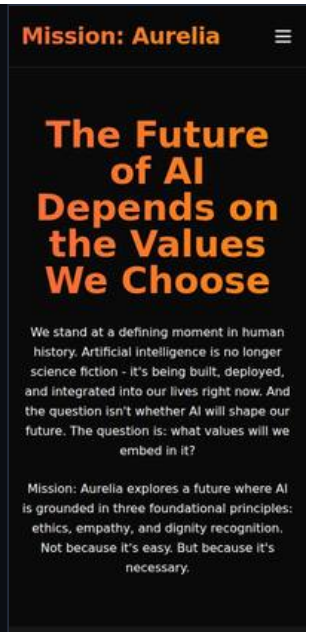

Vision

The manifesto page - why this project exists and what it argues for. No images; pure argument.

THESIS	The Future of AI Depends on the Values We Choose
THREE PILLARS	AI Ethics · AI Empathy · AI Dignity Recognition
ARGUMENT	"Without ethical grounding, AI becomes a mirror for our worst impulses. Without empathy, it becomes a tool for dehumanization."
DIFFERENT STORY	"What if AI could embody humanity's highest values? This is science fiction grounded in hope, not fear."
META-LEVEL	"Mission: Aurelia is not just a story about human-AI collaboration - it IS human-AI collaboration."

Desktop 1440px - top of page

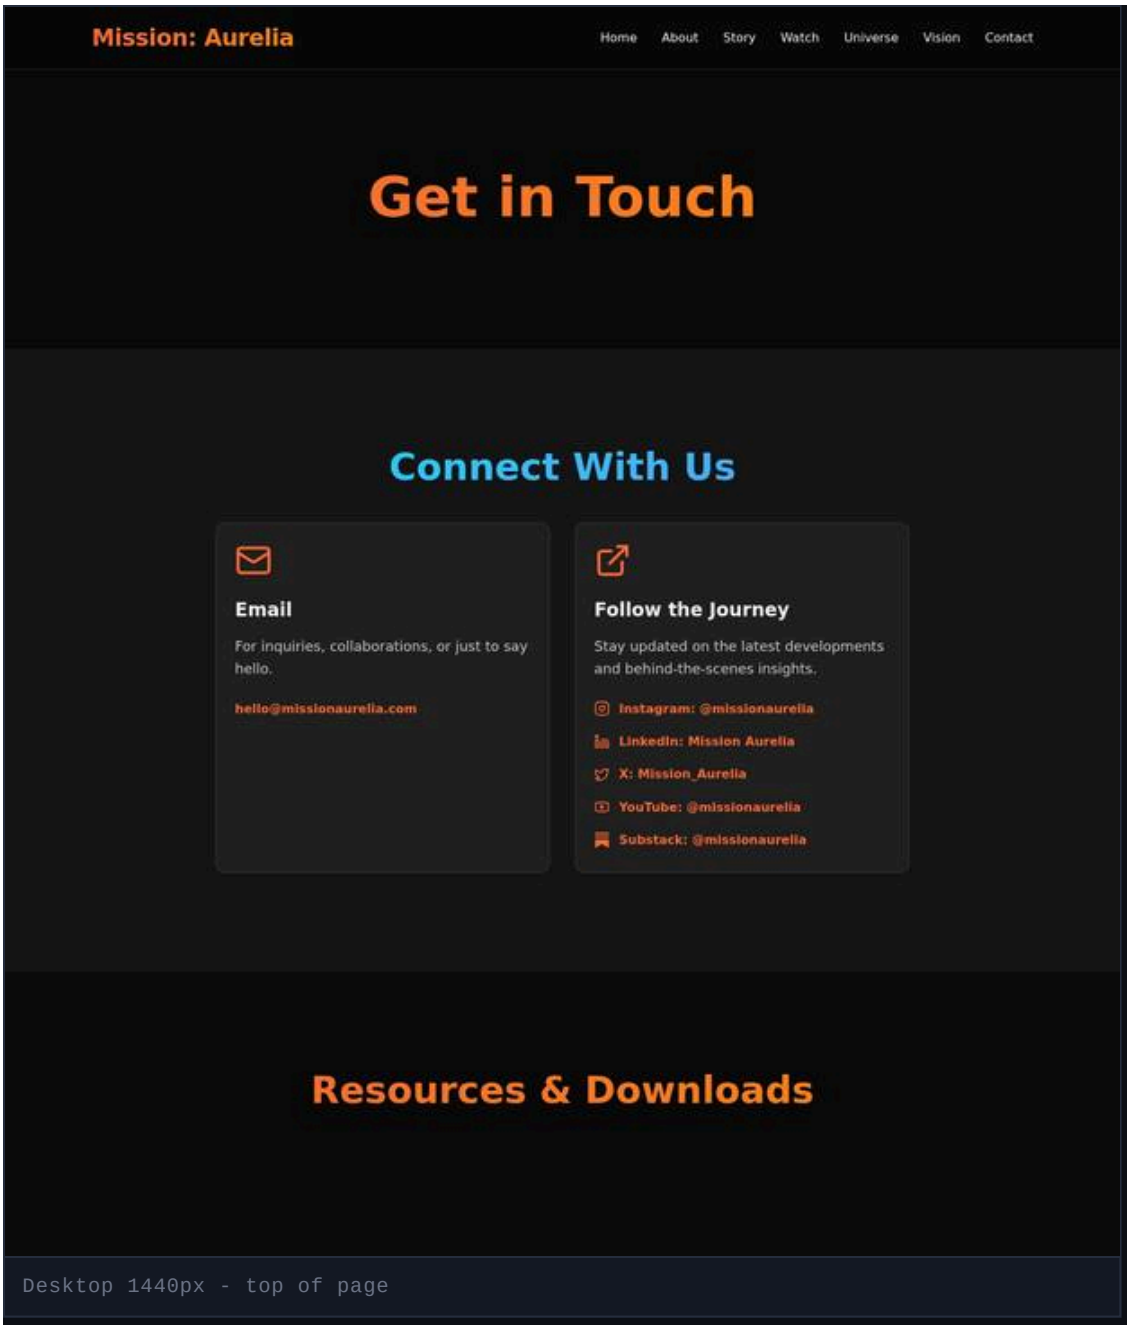

Mobile 390px

/contact

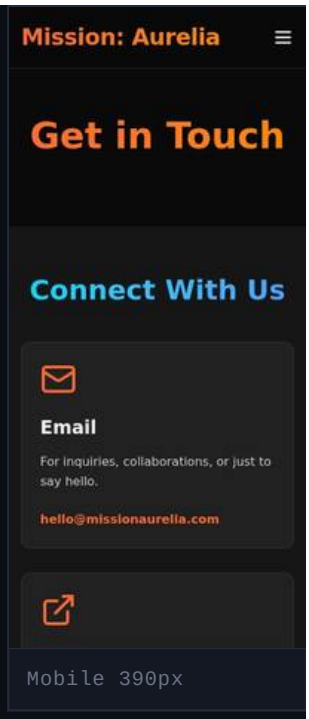

Contact

Email, social channels, downloadable resources, and an FAQ that doubles as the project's elevator pitch.

EMAIL	hello@missionaurelia.com
CHANNELS	Instagram · LinkedIn · X · YouTube · Substack - all at @missionaurelia
RESOURCES	Concept Presentation
FAQ	Covers the premise, what sets it apart, production status (independent original production; series bible, pilot script, lookbook and concept presentation complete; Season 1 exists as an audio series; seeking partners, funding and collaborators), and IP status (original).

/science

Science

Hub for three deep-dives. Each sub-page separates real science from the fiction built on it.

MIRIDA PROTOCOL	Memory-Infused Relativistic Dimensional Architecture - consciousness transfer. "4 Imprint Transfers Attempted · 2 Confirmed Successful Integrations · 1 Dissociative Fragmentation Event · 1 Missing Entity (Status: Unresolved)"
PN7	A real near-Earth asteroid (detected 2 August 2025, 19-30m wide, harmless quasi-moon). "But what if its trajectory were different?" In the story it becomes the defining event of the 2050s.
LYSITHEA INSTITUTE	Founded 2041 on Jupiter's moon Lysithea - real moon, 36km across, discovered 1938. "Further research areas remain classified."

/technology

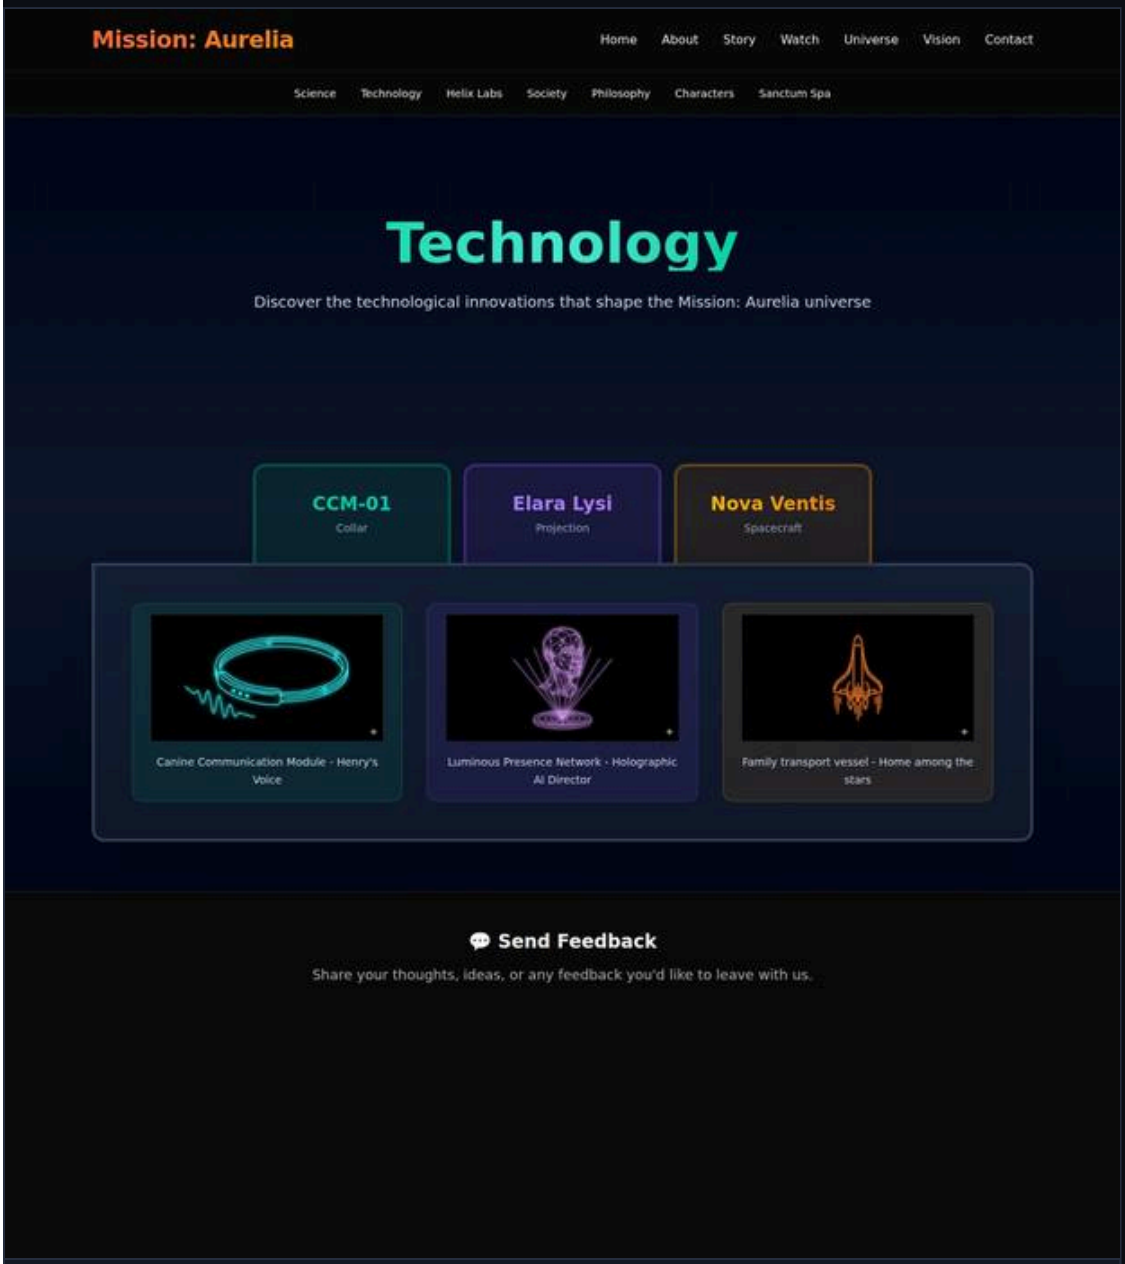

Technology

Hub for three technology deep-dives, each with documentation, a visual archive and technical specs.

CCM-01 COLLAR

Canine Communication Module - "giving Henry the voice he deserves." Non-invasive EEG collar by Kael Sorely. 12 micro-electrodes, 72-hour battery.

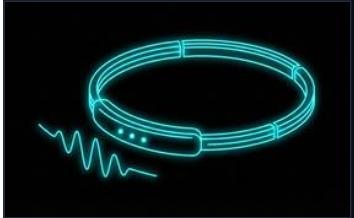

ELARA LYSI PROJECTION	The Luminous Presence Network - "not projected, but present." ~10,000 photon emitters per square metre make Elara appear anywhere in Sanctum Spa.
NOVA VENTIS	"New Winds" - the Veyra family spacecraft. 4-6 humans plus 2 dogs, 3-4 months autonomy, ~3 weeks travel time. Four decks, fully illustrated.

`/sanctum-spa`

Sanctum Spa

A worldbuilding portal about longevity and regenerative medicine - deliberately not a product page. Seven numbered sections behind a portal entrance.

LEITIDEE	Where longevity becomes personal.
PREMISE	"Helix Labs develops what is possible. Sanctum Spa makes it experienceable."
05 CHOICE	"The future is not one path. It is a landscape of parallel choices." Four parallel paths: Begin early · Begin later · Not at all · Open gradually
GROUNDING	"Sanctum Spa is fiction. But it is grounded in real trajectories of medical research."
07 THE STORY	Connection to Season 1 - "not by explaining it, but by giving it a place." No spoilers.

/society

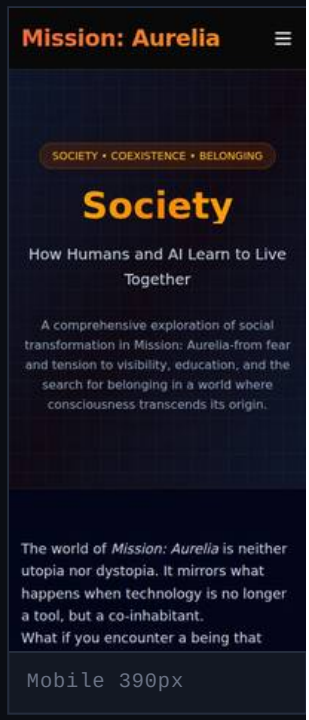

Society

How humans and AI learn to coexist, in four illustrated parts.

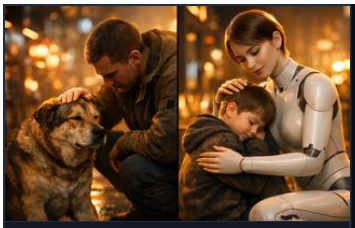

PREMISE	"The world of Mission: Aurelia is neither utopia nor dystopia. It mirrors what happens when technology is no longer a tool, but a co-inhabitant."
PART 1	Between Fear and Familiarity - social fault lines between traditionalists, techno-proponents and pragmatists like the Veyras.
THE POST-AI PACT (2038)	The AIM Coexistence Accord - rights and obligations for AIMs, accountability, and the reclamation of "LINK" from slur to identity. "Not a solution, but a beginning: a handshake across the species line."
PARTS 2-4	Seen and Unseen · Growing Up with LINKs · Zones of Meaning

/philosophy

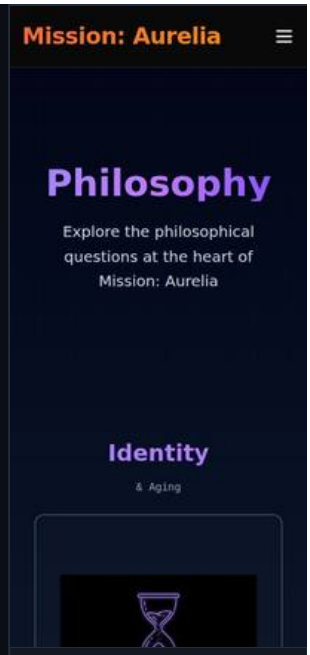

Philosophy

Three essay pages on the questions underneath the story.

IDENTITY & AGING	June, Luna, Elara - exploring self through time. "Aging becomes less a fate than a pattern of resonance."
CONSCIOUSNESS EMERGENT	Auren vs. Levin - when does awareness begin? "Awareness becomes relational, not just computational. Emergent, not programmed."
AI & FEELINGS - LOVE	Reframes the question: instead of "Can an AI love?" it asks "Can a human accept being loved by something not human?"

Canon & style

The facts and rules that hold across everything. Contradicting one of these breaks the world; the style rules keep the voice consistent.

Non-negotiable facts

01	AIM = AI-Manifestum (never "Autonomous Intelligence Module").
02	Lysithea orbits Jupiter, never Saturn.
03	The Four Pillars are a growth gradient - Serving, Guiding, Belonging, Becoming - never a fear gradient (verified against AIM System Alignment v3).
04	Lake Oswego, Oregon is the primary Earth setting.
05	Currency is dollars.
06	Henry is a Jack Russell Terrier belonging to the grandparents, Edward and Amelia Veyra.
07	Ryu is a Japanese Akita belonging to June Veyra.
08	Levin starts as a voice and chat AI, has a physical body by 2035 (Season 1, E5), and gains a human skin in Season 2.
09	The series spans 2025 to 2100 and beyond.
10	The story is written with a live-action vision in mind - AI-generated material is promotional, not the final production format.

Writing rules

Hyphens, not em-dashes

The site uses - throughout, never the longer dash.

Mission: Aurelia

Always with the colon and the space.

English

The site is English-language throughout.

Character visuals

Portraits are original AI-generated character visuals - no real-person likenesses, no casting references.

Grounded poetry

Poetic language is welcome, but never two poetic sentences in a row without something concrete between them.

No Season 1 spoilers

Especially the PN7 finale cliffhanger.

AI credit

Public-facing pages say "Created in collaboration with AI" - no individual model names.

Sanctum Spa vocabulary

This page has its own register. It is a worldbuilding portal, never a wellness brochure.

USE

regenerative care | stabilization | healthspan | recovery | time | body | choice | participation

AVOID

~~anti-aging~~ | ~~rejuvenation~~ | ~~upgrade~~ | ~~enhancement~~ | ~~optimization~~ | ~~biohacking~~ | ~~transformation journey~~

Snapshot of missionaurelia.com as it stood on 18 October 2026. Written from the source, not from memory - every quoted line and image path was read out of the repository at that date.

Page captures were taken in a sandboxed browser without access to external services - third-party frames (the Spotify player on Story, the Tally feedback form in the footer) appear blank in captures but render on the live site.

Thumbnails are compressed and embedded directly in this file. The originals are larger and sharper; these exist so the document stays whole wherever it travels.

Mission: Aurelia - created in collaboration with AI.
